

APPLICATION FOR PERMIT

Serial No. 7573

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of first receipt and filing in State Engineer's office NOV 16 1925
Returned to applicant for correction
Corrected application filed

The undersigned

C.E. Wedertz

Name of applicant

of

Wellington

County of

Lyon

State of Nevada, hereby make application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation.)

1. The source of the proposed appropriation is Deep Creek in California
Name of stream, lake, or other source
2. The amount of water applied for is _____ second-feet.
One-second-foot equals 40 miners' inches
3. The water to be used for _____
Irrigation, power, mining, manufacturing, domestic, or other use
4. The water is to be diverted from its source at the following point:

Describe as being within a 40-acre subdivision of public survey, or by course and distance to a section-corner. If on unsurveyed land, it should be so stated.

SEE APPLICATION TO CHANGE POINT OF DIVERSION.

IF THE WATER IS TO BE USED FOR IRRIGATION, SUPPLY THE FOLLOWING INFORMATION:

(a) Number of acres to be irrigated is _____

(b) Description of land to be irrigated _____

Describe by legal subdivision, or if on unsurveyed land it shouldbe so stated and a description provided in accordance with special instruction from the State Engineer when application is returned for correction.

(c) Irrigation will begin about _____ and end about _____
Month
, of each year.
Month

IF WATER IS TO BE USED FOR POWER, MINING, TRANSPORTATION, OR OTHER USE, SUPPLY THE FOLLOWING INFORMATION:

(d) Power to be developed is _____ horsepower.

(e) Works to be located _____

Give 40-acre subdivision on which works will be located, or locate by course and distance to a section-corner.

(f) Point of return of water to stream _____

Describe in same manner as point of diversion.

(g) Remarks _____

DESCRIPTION OF PROPOSED WORKS

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water is to be stored in reservoirs, it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions.

5. Estimated cost of works
6. Estimated time required to construct works
7. Remarks

For use of applicant

, Applicant.

DENIAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, deny and do hereby grant the same, subject to the following limitations and conditions:

This application is hereby denied on the grounds that the granting of a permit would conflict with existing rights and would threaten to prove detrimental to the public interest. No findings nor ruling is made as to the merits of the protests to this application.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed cubic feet per second.

Actual construction work shall begin on or before

Proof of commencement of work shall be filed before

Work must be prosecuted with reasonable diligence and be completed on or before

Proof of completion of work shall be filed before

Application of water to beneficial use shall be made on or before

. Proof of the application of water to beneficial use must be filed with State Engineer on or before

WITNESS MY HAND AND SEAL this 9th day
of July 1998

R. MICHAEL TURNIPSEED, P.E., State Engineer.

APPLICATION FOR PERMISSION TO CHANGE THE POINT OF DIVERSION OF THE
WATERS OF THE STATE OF NEVADA.

Date of first receipt and filing in State Engineer's Office NOV 16 1925
 Returned to applicant for correction
 Corrected application filed

The undersigned, C.E. WEDERTZ of Wellington, County of Lyon,
 State of Nevada, hereby makes application to change the point of
 diversion of water heretofore appropriated and beneficially used
 under application and permit No. 5591.

1. The source of the water supply proposed to be changed is Deep Creek in California, through the channel of Desert Creek in Nevada.
2. Diversion from said source, as set forth in application and permit No. 5591, is as follows: "From Deep Creek in California in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 28, T. 7 N., R. 24 E. and from Desert Creek in approximately the NE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 17, T. 8 N., R. 24 E. MDB&M."
3. It is proposed by virtue of this application to change the respective points of diversion from Deep Creek and Desert Creek as follows: "From Deep Creek in California in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 20, T. 7 N., R. 24 E. at a point which bears S. 15°16' W. 4227 feet from the corner of Secs. 16, 17, 20 and 21, T. 7 N., R. 24 E., thence through ditch to Lobdel Lake and from said Lake through the channel of Desert Creek to a point in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 20, T. 10 N., R. 24 E. which bears S. 50°12' W. 2424 feet from the quarter corner common to Secs. 20 and 21, T. 10 N., R. 24 E., where it will be diverted by a ditch to land to be irrigated as hereinafter described.
4. The quantity of water desired to be changed is 1.6 second feet.
5. Permit No. 5591 was granted for 640 acre feet for storage to irrigate 160 acres of land, but this application proposes direct irrigation thereby eliminating the storage feature.
6. The water will be used for irrigation and domestic purposes for 160 acres of land in the SE $\frac{1}{4}$ Sec. 16, T. 10 N., R. 24 E., said land being the same as that described under application and permit No. 5591. About 35 acres of said land has already been placed in alfalfa.
7. Water will be used from April 1st to October 1st, which is the same period set forth in application and permit No. 5591.
8. The water covered by this application and application and permit No. 5591 was appropriated in the State of California in October, 1911, by complying with the laws of California relative to the appropriation of water. The water is to be conveyed, as above set forth, by ditch to the channel of Desert Creek and thence taken through said channel to the point of rediversion heretofore set forth, from which point it will be conducted upon the land to be irrigated by means of a ditch. The point of rediversion from Desert Creek, as well as the land to be irrigated, is located in Nevada.
9. The estimated time to construct the proposed works is one year.
10. The estimated cost of proposed works is \$500.00
